

Identify the test?

Mention the sensation tested in this photo? And its tracts?

mention the pathway of this sensation?

Mention the afferents of this sensation?

Identify the test?

Mention the sensation tested in this photo? And its tracts?

mention the pathway of this sensation?

Identify minimal distance?

Mention the factors decreasing the minimal distance?

Identify the test?

Mention the sensation tested in this photo? And its tracts?

Mention the receptors?

Identify the tools used in this test?

Mention the sensation tested in this photo? And its tracts?

Mention the receptors?

Identify the tools used in this test?

Mention the sensation tested in this photo? And its tracts?

Mention the receptors?

Mention the sensation tested in this photo? And its tracts?

Mention the receptors?

Enumerate two types of this sensation?

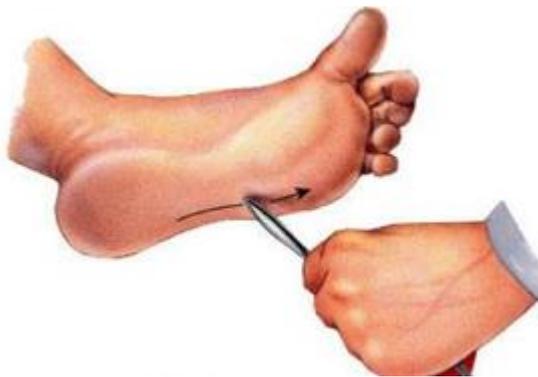

**Mention the sensation tested in each photo? And its tracts?
mention the pathway of this sensation?**

**Mention the sensation tested in this photo? And its tracts?
Compare between two types of the receptors of this sensation?**

Identify this reflex? And its center?

Identify this sign?

Enumerate causes of it?

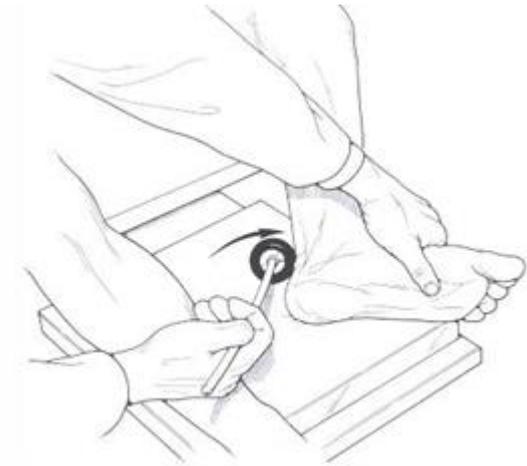

Identify this reflex? And its center?

Mention the name of the muscle and its tendon?

How to reinforce it?

Enumerate cause of hyperreflexia?

Enumerate causes of hyporeflexia?

Identify this reflex? And its center?

Mention the name of the muscle and its tendon?

How to reinforce it?

Enumerate cause of hyperreflexia?

Enumerate causes of hyporeflexia?

Identify this reflex? And its center?

Mention the name of the muscle and its tendon?

How to reinforce it?

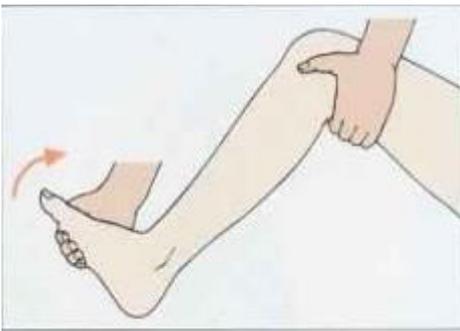

Enumerate cause of hyperreflexia?

Enumerate causes of hyporeflexia?

Identify this reflex? And its center?

Mention the name of the muscle and its tendon?

Identify this sign and its mechanism?

Identify this reflex? And its center?

Mention the pathway of this reflex

Mention its significance?

identify this reflex? And its center?

Mention the pathway of this reflex

Mention its significance?

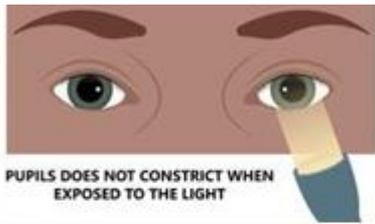

How to explain consensual light reflex?

identify this reflex? And its center?

Mention the pathway of this reflex

Mention changes occur in this reflex?

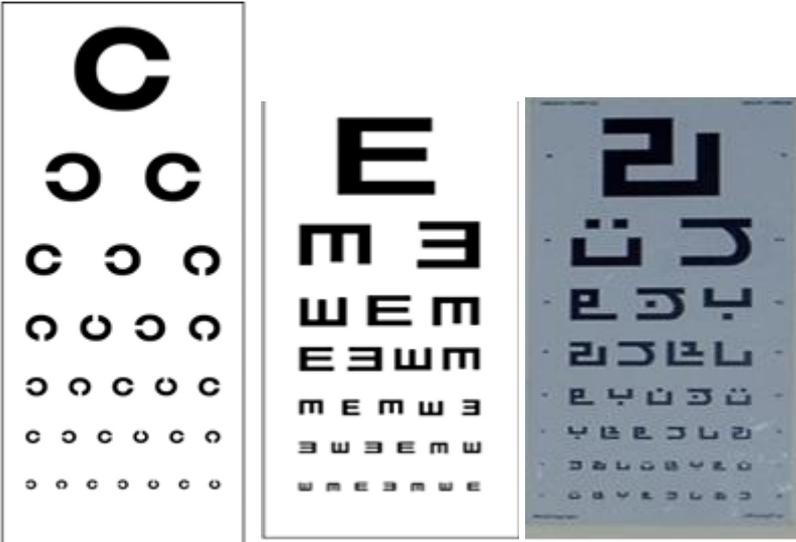

Identify the lesion?

Mention causes of it?

Identify the lesion?

Mention causes of it?

Identify each photo?

Mention their use?

Enumerate factors affecting visual acuity?

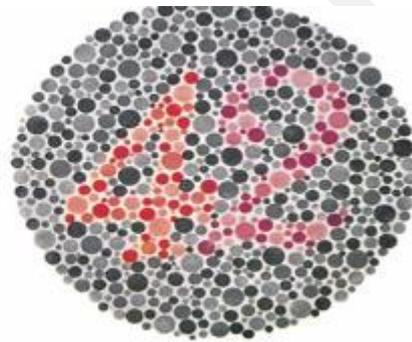

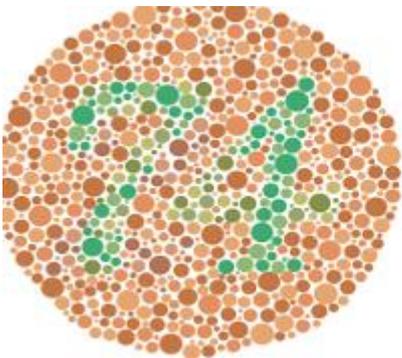

Identify this test?

Mention its use?

Identify this instrument? And its importance?

Identify this test?

Which disease is diagnosed by it?

Enumerate types of this disease?

Identify this test?

Which disease is diagnosed by it?

Enumerate types of this disease?

Identify this test?

Which disease is diagnosed by it?

Enumerate types of this disease?

Identify this test?

Which disease is diagnosed by it?

Identify this test?

How to interpret the results?

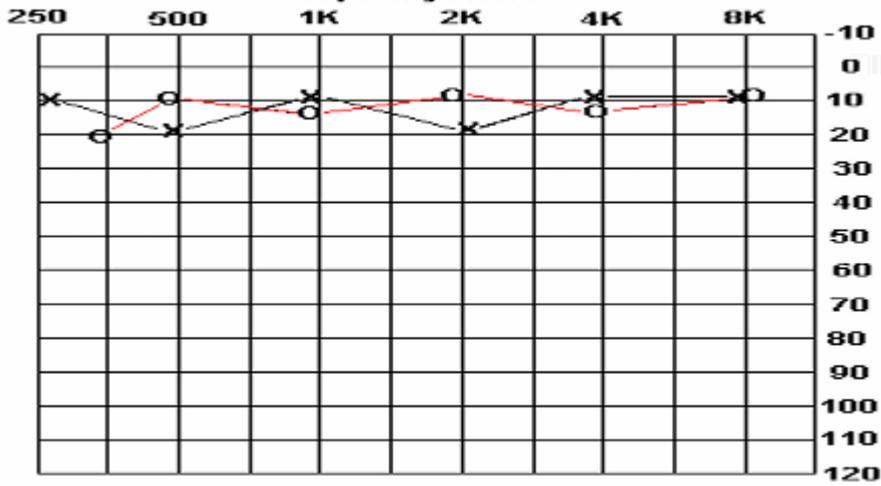

Identify this test?

How to interpret the results?

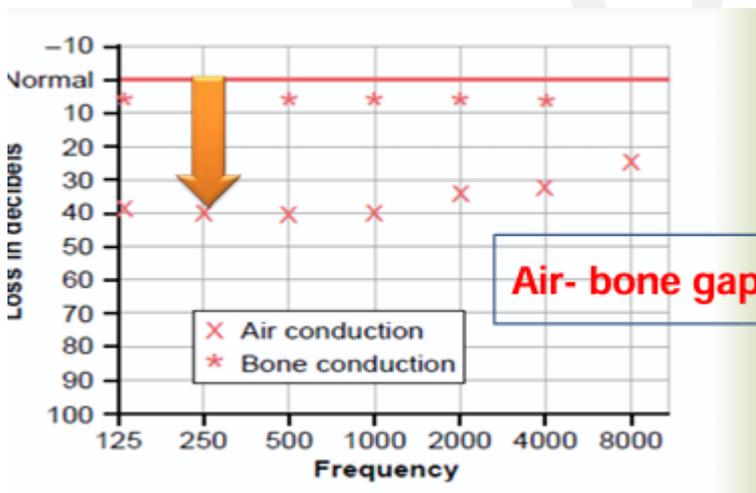

Identify this instrument? And its use ?

Identify this photo?

What is the diagnosis?

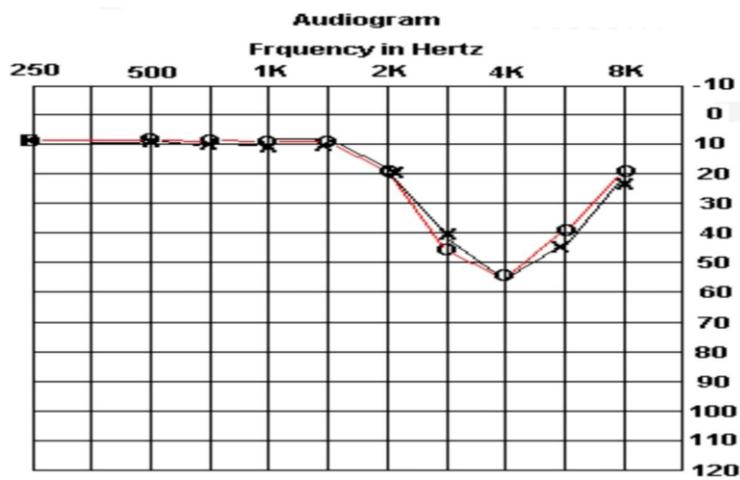

Compare between conductive vs sensorineural deafness

Identify this photo?

What is the diagnosis?

Compare between conductive vs sensorineural deafness

Identify this photo?

What is the diagnosis?

Compare between conductive vs sensorineural deafness
